

Biography for Christophe Poizat

Christophe Poizat is a passionate entrepreneur on a mission, mentor, speaker, author with 20+ years of international consulting experience. Christophe has lived on four continents.

Christophe is the Founder & President of International Network of Social-Eco Entrepreneurs (INSE), a global organization whose mission is to provide business education to entrepreneurs worldwide and inspire them to work collaboratively toward the achievement of the Millennium Development Goals (MDGs) thru the adoption of the triple bottom-line: People-Planet-Profits.

Christophe has extensive experience in dealing with very large organizations and complex business situations. As strategic adviser, he was involved between 1999 and 2002 in the negotiations of a multi-billion dollar portfolio of business deals; the smallest deal was worth USD 2.3 Billion.

Christophe has over 20 years of international consulting experience in IT, during which he assisted prestigious clients such as: General Electric, Fiat, BNP Paribas, US Dept of Education, State of Arizona, Australian Taxation Office, IBM Global Services, for a better use of resources in a value-added way aligning People, Technology & Processes in order to overcome business challenges and achieve or surpass their financial goals at acceptable levels of risk. More details about his IT career available at: <http://linkd.in/mUjCln>

Christophe's main objective is to continue leveraging his success to provide support to social projects with a focus on the eradication of extreme poverty, an increased protection of the environment and providing better education to the largest number of people across the globe. At the end of his life, 90% of his fortune will go to INSE so he will continue to distribute wealth in abundance long after he has left the planet.

Awards

. Award received from the State of Arizona, Department of Economic Security for his commitment to Excellence and Outstanding service in 2001: <http://tinyurl.com/4fnp6m>

. Award received from the U.S Department of Education - NSLDS Project (the largest Federal IT Project in the U.S at the time) for his commitment to Excellence and Outstanding Service in 1997 while delivering a major system redesign that helps the U.S save an estimated USD 7 Billion a year which was cited by former President Bill Clinton at his Speech of the Union back in 1996: <http://tinyurl.com/4sp4mc>
